

*Caring for the community since 1970!*

## REFLECTIONS OF FIFTY YEARS

## *A Labor of Love!*

*These stencils (and many more!), which now adorn a quilt that is displayed at the current LSRVNA offices, were originally painted in the 1990's as a border of the conference room in the agency's former location on the corner of County and Newport Roads in New London.*

*Each image was selected by a hospice family member in honor of a loved one...and then painted onto the walls by a dedicated volunteer "stenciling crew".*

*The stencils are a reflection of the beauty of each person's unique life and a tribute to the hospice care philosophy that remains today.*
