

Shining a Light, Illuminating Your Journey

HOSPICE MONTH 2020

... adapting to a new normal while honoring dignity in every moment

HOSPICE LIGHTS:

Glowing white lights on the LSRVNA building at 107 Newport Road in New London will gradually be illuminated during “National Hospice Month” in November to reflect the growing support of our hospice program by the community and to symbolize the bright light of every life! In lieu of the Hospice Dinner this year, please consider making a gift to benefit and sustain the compassionate hospice care provided by our team!

REMEMBRANCE VIDEO:

The traditional Time of Remembrance gathering will be replaced this year with a remembrance video to be posted on the LSRVNA website for families and others to view. The video will feature members of the hospice team and include inspirational readings, music, and a general remembrance of those who died this past year.

Stay tuned for more details about our video and hospice lights... as well as reflections from members of the hospice team and more!
