

BETTER
together

... a special message from Jim Culhane, President & CEO

- ***We are better together!*** The connections between **Lake Sunapee Region VNA & Hospice** and its community run deep. Together, we are better able to face the challenges of growing home care costs and complexity, better able to recruit compassionate staff to care for you and others, better able to weather the storms that have recently passed and are sure to come, and better equipped to remain an enduring presence.
- During the pandemic, we asked everyone to adapt as our world turned upside-down ... and everyone said yes. Last year, we asked for help to meet the \$50,000 *Annual Fund Matching Challenge* ... and so many givers said yes. That is what our community does ... steps up and says yes! I couldn't be prouder of the commitment and adaptability of our staff members or more grateful for the caring people and organizations that stand behind them.
- The mission of **Lake Sunapee Region VNA & Hospice** is to make a difference not a profit, to offer services that enhance quality of life and help people remain in the homes they love. Charitable giving is core to this mission, and the ***Annual Fund*** is core to charitable giving, providing reliable donations year after year that allow us to address immediate needs while planning for the future.
- **Every gift matters.** I hope you will consider supporting our ***Annual Fund*** drive this year. We are indeed stronger, more vibrant and better together.

*thank
you*
