

November 2022

Dear Friends:

As Lake Sunapee VNA celebrates **National Hospice & Palliative Care Month** in November, your belief in and support of hospice care empowers our extraordinary team to make every moment matter for patients and families. And the team truly is extraordinary: our hospice program recently received a rare “5 Star” rating from Medicare Compare, an amazing achievement that compares us to other organizations and reflects the highest quality of care!

Your generosity helps us offer unique programs that aren't covered by insurance but that bring special meaning to each person's hospice journey: Pocket Talkers, Fidget Muffs, weighted blankets, comfort quilts, 14-month bereavement program following the death of a loved one, grief support groups, and the annual *Time of Remembrance Video* that honors the lives of patients who have died over the past year.

HOSPICE LIGHTS ... celebrating the bright light of every life!

As gifts are received, the Lake Sunapee VNA Region & Hospice building in New London will be illuminated to reflect the light of every life. Pictures of the building will be posted on www.lakesunapeevna.org as well resources about hospice care and the names of donors to **HOSPICE LIGHTS** this year.

Your giving spirit helps to sustain compassionate, dignified, meaningful end of life care. Gifts can be mailed to LSRVNA at the address below payable to *LSRVNA Hospice Lights*.
